

Let's Bond Together

Sponsored by UVA in cooperation with CIC

Bonding has been a barrier that has prevented many small, women, and minority owned businesses from competing for larger city, state, and federal governmental contracts.

Join our bond agent as she covers the "Four C's" of the bonding process, Credit, Capital, Character and Capacity to perform. She will answer your questions regarding bonding, the underwriting process, financial statements, and bank lines of credit. She can help you qualify for bonding.

This information will empower you and can help you to move your company to another level by establishing a bond line.

Who should attend?

- Contractors wishing to establish a bond line or increase their bonding capacity.
- Contractors and business owners who want to take their firms to another level.
- Contractors seeking pre-approval for future anticipated bond projects.
- Contractors who just want a better understanding of the surety bond process.
